## ABOUT THIS CATALOG

Our little catalog is late. The gardens have been torn up by a gigantic public water project. Early selling was not possible, nor can we now safely list the usual large number of varieties, especially old ones.

Present fine growing weather gives us unusually large plants. We have fine stock of many of our most recent novelties. We can ship rapidly now because no backlog of orders exists, for we mailed no catalogs for more than one year.

For now, use this little catalog and indicate desirable substitutes or extras. If current construction makes a variety difficult to supply, we can then fill your order full. We want to send all our friends a real surprise package of well grown plants.

**BOB'S BLUE** (Craig 55) Headlands x Mary McClelland gave mainly a race of giants such as Blue Silhouette. With these was a near perfect iris where all the fine qualities of these great parents became intensified by reduction to a 32" plant. All who saw it praised it + coveted it especially Opal + Tom Brown, Everett Long, + Bob Schreiner. Bob's praise made us call it Bob's Blue instead of 55-112. It is a clear smooth small blue with the heaviest substance, fine flaring form, + a perfect stem. Our small stock suffered from construction work on the ranch, but we have agreed to list it this season. About 10 small plants will be released #30.00

DAYLILY  
INTRODUCTIONS

Raven  
Wing

by Mrs. DOUGLAS  
PATTISON

**RAVEN WING** (Pattison) This velvety maroon-black lily of superb form & substance combines real quality with nearly everblooming habits. The 26" multiple branched stem and rich evergreen foliage make a perfectly balanced clump. Few plants for sale. Ev., E.E.+Re. \$25.00

**DARK DESTINY** (Pattison) This velvety black-red spider lily should be loved by all who like this form. From the depths of color glows a gemlike intensity of ruby-crimson. Perfect 26" stem. Ev., E.E.+Re. \$15.00

by the CRAIGS

**BIANCA** (Craig) When I first hybridized daylilies I began working for tall large, sunproof lemon lilies suitable for parklike plantings. Bianca, Brimstone and Vista are 3 of these seedlings chosen from over 50,000 evergreen lemon lily seedlings flowered over the years. I chose Bianca for the full ruffled flower, the fragrance, and the pale jasmine color that blends to a chartreuse throat. \$20.00

**BRIMSTONE** (Craig) Pale empire to lemon yellow 7" flowers with chartreuse throats born on graceful multiple-branched stems. 38", E.E., Re. \$20.00

**CITRON** (Ivan Craig) This very full sun resistant lemon lily is all quality. It is especially suitable for borders and small gardens where it's 2 ft. stem is ideal. Ev., E.+Re. \$10.00

**GOLDFIELD** (Craig) A pure cadmium yellow 5" flower. Seems faultless. 2", Ev. \$15.00

**HELEN HARTLEY** (Kenny Craig) This lily is strikingly novel, for the color is raspberry, blended rose of picardy. It blooms over a very long period starting early and continuing thru the season. Semi-dec., 28" \$15.00
